

Deciding a career level: undergraduate SoPA

*If no undergraduate degree has been awarded, the UG level continues for all SoPA certificates.

^All SoPA undergraduate certificates awarded after the first awarded undergraduate degree will apply to the same subsequent undergraduate level. For example, the first undergraduate degree will be at the UG level, and all subsequent undergraduate SoPA certificates are at the U2 level.

Consult with the Registrar's Office for help with circumstances not otherwise indicated in this guide.
